*Reformed and Refreshing*

*October 20th, 2019*

Welcome to Covenant Baptist Church. We are a Reformed church committed to three things:

- **The Exaltation of God**

We desire that the people at Covenant truly understand who God is and His rightful place in their lives as their Lord and sovereign Savior.

- **The Edification of the Saints**

We consider it extremely important to correctly teach the Bible, verse by verse, so we can properly have the Holy Spirit apply it to our lives.

- **The Evangelization of the Sinner**

We understand that God has given us the responsibility to be stewards of the Gospel and that means sharing it exactly like God gave it to us with those who need Jesus.

This year we again plan to help with the Kenya orphan ministry by providing the funds needed to purchase clothes and uniforms for Christmas. We will accept donations through December 8. The uniforms are much needed items for the children. We will have the price breakdown next week for individual items, and for the uniforms. If you would like to start giving toward this project, just earmark your check or envelopes “Kenya Orphans Christmas”.

—  
There is a communication board in the Fellowship Hall. It includes a calendar to sign up for using the facilities at the church. You may borrow tables and chairs to take home for a function. Please put your name and the number of items you borrow on the calendar. You are responsible for cleaning the facilities after you use them, including removing your trash. The board will also be available to advertise your need to remarket items, or to offer your services for hire. Marie Lucas is the coordinator for this board. Her number is 803-397-9082.

## Book of the Week: The Old Evangelicalism *Iain H. Murray*

Sin, regeneration, justification by Christ’s righteousness, the cross, and the love of God, assurance of salvation - these are the truths that once thrilled churches and changed nations. Yet, where evangelicalism continues to affirm these truths, without such results, it is often assumed that she must have needs that cannot be met without something new.

These addresses by Iain Murray challenge that mindset. While the Bible not history is the textbook in these pages, Murray draws on the best authors of the old evangelicalism to confirm what a glorious message the gospel is.

# G3 Conference: Worship

<https://g3conference.com/>

“The worship of God has both a theological foundation that must not be ignored as well as practical implications for every Christian and local church.

“Does God mandate how we worship and how do we discern what is acceptable worship to God? In an age where pastors are entering the pulpit on zip lines and where motorcycle stunts are being attempted as illustrations during corporate worship—we must ask ourselves what does God expect and what does he forbid?

“In the 2020 G3 Conference, we will look at the subject of the worship of God—seeking to understand the theological foundation and real life implications for us in the context of our local churches. Make your plans to join us by securing your seat!”

Worship is our innermost being responding with praise for all that God is, through our attitudes, actions, thoughts, and words, based on the truth of God as He has revealed Himself.

—John MacArthur

## Saudi Arabia opens tourism to ancient biblical sites: ‘The atmosphere is changing’ —by Caleb Park

As Saudi Arabia increasingly opens up to tourists, a travel group in the country started offering this week a “first-ever Christian tour of rare sites,” promising participants a close-up look at a controversial location believed to be the real Mount Sinai — the mountain where, according to the Bible, God gave Moses the Ten Commandments.

Saudi Arabia, which has been closed for tourism the last several decades and has a dismal record on human rights, decided to give tourist visas on the heels of the second delegation of evangelical leaders from America, hosted by Saudi Crown Prince Mohammed bin Salman last year and earlier this year.

“The atmosphere in Saudi Arabia is changing,” said Rhonda Sand, owner of U.S.-based travel company Living Passages. “They are hard at work developing the country for Western tourism.”

Living Passages is taking a group of 25 people this week through “Jethro’s Caves in the land of Midian,” believed to be ancient Midian. The tour will be led by Joel Richardson, the author of “Mount Sinai in Arabia: The True Location Revealed.”

“This portends to be the most significant new archaeological site in modern history,” Richardson told Fox News. “We’re tremendously blessed that the Saudi government is allowing us to visit the kingdom to see some of its rich historical and geographic treasures.”

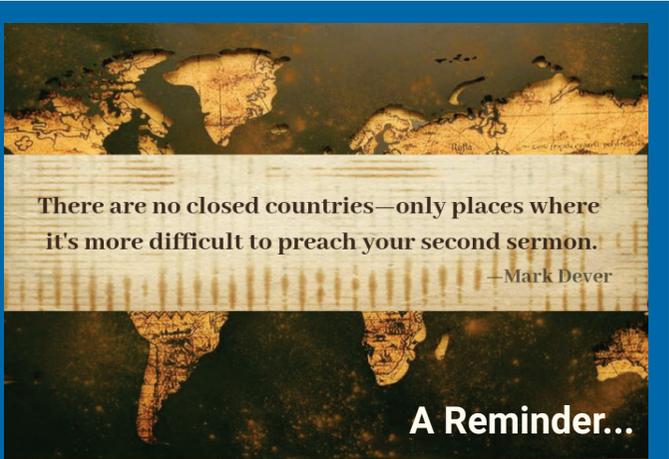

Richardson, who said this is one of the most faith stirring experiences of his life, explained tourists will be flocking to see the historical mountain and other sites covered in a short documentary, “Finding the Mountain of Moses: The Real Mount Sinai in Saudi Arabia,” by Ryan Mauro, who will also be leading a tour in February.

Most notably, the group is visiting the Jebel al-Lawz mountain in the ancient land of Midian. Early Jewish, Christian and Bedouin traditions have long attested this site to be the real Mount Sinai. The controversial theory contests the traditional location in the Egyptian Sinai Peninsula. On the north-west side of the mountain is the Split Rock of Horeb — a massive stone several stories tall, split down the middle, with evidence of water erosion at its base.

## Saudi Arabia opens tourism to ancient biblical sites: 'The atmosphere is changing' —by Caleb Park (cont.)

This week tourists will visit the town that has an ancient well, held to be where Moses met his wife Zipporah, daughter of Jethro, after fleeing Egypt. The group will explore the ruins of Dedan, Wadi Tayyib – along the Red Sea coast – and Tayma, where Babylonian King Nebuchadnezzar may have occasionally stayed.

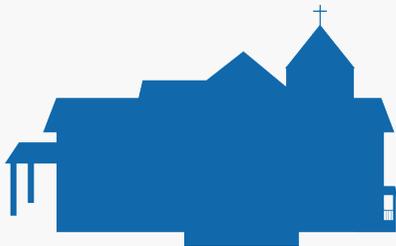

Beyond the historic sites, the kingdom is hoping to increase international tourism with new museums and first-class hotels — and even a smart city in the northwest called Neom, set to be fully functional by 2025.
